

# CUSTOM TRAINING DEVELOPMENT TELL US WHAT YOUR BUSINESS REALLY NEEDS

**Your Challenges. Your Training. Your Solution.**

Not every organisation fits a standard training course — and that's exactly why EPC offers custom-built training solutions designed around your real-world challenges.

We invite you to work with us to identify gaps, risks, and opportunities within your organisation, and we will develop tailored training that delivers practical, measurable results

## WHY TALK TO US?

**Many organisations struggle with:**

- Training that doesn't reflect real workplace challenges
- Compliance requirements that are unclear or constantly changing
- Staff lacking confidence in key processes
- Repeated audit findings or recurring issues
- Inefficiencies that impact time, cost, and safety

We don't believe in generic training.

We build **targeted, relevant programmes** that solve the problems affecting your business today

## WHAT YOU WILL GAIN

- Training designed specifically for your environment
- Improved staff confidence and capability
- Reduced risk and improved compliance outcomes
- Better audit results and preparedness
- Increased efficiency and reduced waste
- A partner focused on continuous improvement

## WHAT WE CAN HELP YOU WITH

If something in your organisation isn't working as well as it should — we want to hear about it.

Common areas we can support include:

- Lean methodologies beyond 5S (waste reduction, workflow improvement, visual management)
- Audit preparation and understanding audit expectations
- HDSS / Ngā Paerewa standards and compliance requirements
- Quality management systems and documentation
- Incident management and root cause analysis
- Hazardous substances and chemical safety
- Health & Safety systems and risk management
- Process improvement in healthcare and aged care environments

Or simply:

“This is what's causing us issues — can you help?”

## LET'S START THE CONVERSATION

Tell us what's not working — and what you need.

Submit your ideas through our website form or contact us directly:
