

SPECIALISED FIRST AID COURSE FOR AGED RESIDENTIAL CARE HOMES

Empowering Your Team with Lifesaving Skills Specific to Aged Care

WHY CHOOSE THIS COURSE?

Equip your aged care staff with essential first aid skills tailored to their environment. Delivered by **Eagle Precision Consultancy** and led by **Kat Swain**, a qualified New Zealand Emergency Care Trainer, this course follows **NZ Resuscitation Council guidelines** and ensures your team is confident in managing medical emergencies.

WHAT WILL YOUR STAFF LEARN?

This course focuses on the most common emergencies in aged care, so your team is always ready to act. Topics include:

- 1** CPR and Choking: Life-saving techniques tailored to older adults.
- 2** Allergic Reactions & Anaphylaxis: Spot and respond to severe allergies fast.
- 3** Head Injuries: Conducting neuro observations and knowing when to escalate.
- 4** Wound Care: Basic dressing techniques and effective wound management.
- 5** Fractures: Safe handling of hip fractures and other broken bones.

Invest in Safety. Invest in Your Team.

A first aid course that meets the unique needs of aged residential care homes.

- 6** Chest Pain: Recognizing early signs of cardiac issues.
- 7** Hypoglycaemia & Fainting: Immediate response to low blood sugar and fainting incidents.

Why Train with Eagle Precision Consultancy?

- **Cost-Effective:** Train multiple staff at once, saving time and money.
- **Convenient Scheduling:** Courses throughout the year, fitting seamlessly into your roster.
- **Certificate of Completion:** Demonstrates your commitment to resident safety and staff development.
- **Expert-Led:** Learn from **Kat Swain**, a trusted NZ Resuscitation Emergency care instructor and aged care expert with years of experience.
